

WHEN THE
SOLUTION
MATTERS

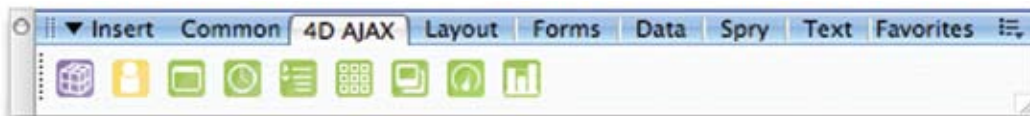

4D Ajax for Dreamweaver™

Embed Ajax objects into your website without any hand-coding!

Developers who want to get to the next level in 4D Ajax Framework customization will want to embed 4D Ajax objects into their own HTML pages. Doing so can be a bit daunting for those not familiar with web technologies such as HTML, JavaScript, or CSS. Plus, web designers who are not experienced 4D developers may need a little extra assistance in adding 4D Ajax objects into their websites.

Which brings us to the obvious solution: 4D Ajax for Dreamweaver. With this free plug-in for Adobe® Dreamweaver™ CS3, developers and designers alike can embed 4D Ajax objects into their HTML pages without writing a single line of code.

All you need to do is install 4D Ajax For Dreamweaver, power up Dreamweaver, and you can add and customize any 4D Ajax Framework object within a web page with a few clicks.

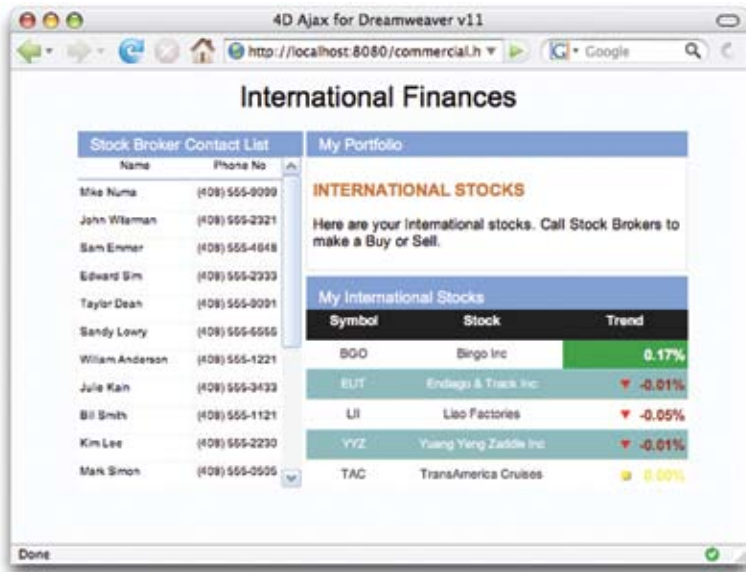

4D and Ajax Power, Dreamweaver Ease

A simple double-click automatically installs the 4D Ajax for Dreamweaver extension. The next time you launch Adobe Dreamweaver, and every time after, a 4D Ajax tool palette appears in the application, giving you quick and easy access to all of 4D's powerful Ajax objects.

4D Web 2.0 Pack: Data lives here.™

Point and Click

Don't want to spend your valuable time wrestling with HTML, CSS and JavaScript? Click on the Ajax object you'd like to insert in your web page, and then adjust the parameters via dialog boxes or property panels within Dreamweaver. 4D Ajax for Dreamweaver does all the heavy lifting for you.

Beautiful, Dynamic Pages

Without writing any new code, you can use Dreamweaver's visual editing capabilities and 4D Ajax for Dreamweaver to drop in Ajax elements to create gorgeous, dynamic web pages. Each element integrates the latest live data, whether from your 4D or ODBC-connected back-end or even integrating 3rd party data as a mashup.

You have the option to match the look and feel of your data objects to the rest of your site, or to rely on the built-in templates for a smooth, professional look right out of the box.

All This and a Dashboard, Too

Want to create powerful Business Intelligence dashboard applications? 4D Ajax for Dreamweaver gives you access to a set of high-powered tools that makes creating business dashboards with at-a-glance live data and cross-browser compatibility as easy as 1-2-3.
